I'm walking from place to place
I'm looking to the sky
My hands are full of tears of sorrow
And eyes refuse to cry
I'm still searching for the meaning
Meaning of the life
I know that I'm again dreaming
Dreaming all the time

Open your eyes and look at me
I know your whole life
Are you really convinced
That your want to leave your life
Sometimes we try to escape
Escape from this time
But you don't know
What's waiting for you
On the other side

I had dream so many times
So many times in my life
So I don't know what is real
But I want to be free now

Exordium before the death
What do you want from me now!
Nothing from your words
Interests me
Leave me leave my mind
I know that place is not for me
I know it really now!!!
I want to finish this strange existance
I hate the life

Open your eyes and look at me
If you hate the life
Are you really convinced
That your wish is right
Remember if you do so
There is no way out
It will be your final journey
Are you ready to die?
