[Blueprint]

I spit with an immense amount of power
Skull flame showers, cowards, cower, underneath our
Storm clouds that indicate the acid rain hours
Now or, never, ever, ending on a bad note
Ripping ya' craft spoke, for spitting a bad quote
(Blueprint what's your approach?)
I smash black folk and white folk alike for jokes with
mics
And make a Kodak moment out of the most boring
open mic
I'll make a sad fan appreciate rap again
Fuck around and forget just how wack it's been
I'm a bad man (Why's that?)
I catch bullets in my molars, body slam boas
And take flight with the weight of the world on my
shoulders
And blame David Blaine on any chains that hold us
What started out as food for thought, turned into
thoughts to turn they
Crews into food in hopes to satisfy my
Insatiable appetite to dine on lifeforms
Small planets and satellites
You solar system is my condiment
I'm bombin' comets, and don't sweat the small things
and nonsense
Every dog has his day and even more so in rhyiming
So I decided that I'd never play the fire hydren
Or grab the mic sounding lazy, worn down and tired
Cats don't really fall off they just get uninspired
But before you, get a reason to ever diss us
I'll drop a I'll LP and disappear like Bobby Fischer
But this is, the building block of all that is
And what it is, is Alchemy

[Aesop Rock] (Chorus)

Alchemy, basic with a touch of wild wonder
Alchemy, we made this to take your style under
Metal frame, walking through a, metal game with a
limp, tight grip
Determined not to let time slip

This is Alchemy, iron b-boy and all his glory
Alchemy, hold it from the colder sob story
Metal frame, walking through a, metal game with a
limp, tight grip
Determined not to let time slip

[Aesop Rock]

Ah, dirty, dirty destiny
Birded murders with a burn gurshin a peasantry
Nervous flux flirtin' with hurley burly chemistry
Graffiti burner urchin merchant with a certain urge
jerkin' served and centerpiece
My zig-zag bully balance gallops with a fiery outline
Ban and bomb y'all pastel poets belly up (I'll tell you
what)
Born stylin' 4 dimensions count em'
3 to take to ya muck one to build a world you'll never
touch
And I'm a pilot, delerium, serum, poison arrangement
?Aroused? when I feel like storming suck the raw
enslavement
With a grin-style stinger creeping out the basement
Impatient wild ritualistic visions of sacrificial bitch
cadence
For all my iron giant soldiers with a metal fist
upshielding mother nature
From her fatal wrist cuts story I'll respect you
(So why they blaming you for the cats that sleep while
the earth turns?)
Yeah I had em' up all night praying I'd re-release Music
For Earthworms
Greed even are lease screaming with milestone like
ring ring ring I just
Caught the scream phoenix click dial tone
Welcome to a clouds swell blew to hallucination war
pillar
Carnivore, carnival, karma slasher
I dash like a jack rabbit that orbits revelation with a
single pounce
To Edward Scissorhands your string of doubts (Yo turn
it out)
This is that mighty case of home field advantage to
bend your blizzard With
A crocodile smile and five robot knuckles to your kisser

(Chorus)

This is Alchemy, basic with a touch of wild wonder
Alchemy, we made this to take your style under
Metal frame, walking through a, metal game with a
limp, tight grip
Determined not to let time slip

This is Alchemy, iron b-boy and all his glory
Alchemy, hold it from the colder sob story
Metal frame, walking through a, metal game with a
limp, tight grip
Determined not to let time slip
