in times when life is so absurd  
nobody plays the cure  
in times when people die  
these methods are obscure  
building the new memorial  
brining the truth of death  
mishappen creatures warning  
misery is blessed  
increasing misconductions  
these rules to overturn  
overzealous progression  
the house of justice burns  
corruption of the misrule

misguided is the peace  
permanence of destruction  
security seduce  
sedition of nuclear waste  
cast into former days  
pawnbrokers of the new death  
early bird of this earth  
freedom selection  
the ultimate day  
death wishes you to obey  
dictated deliverance  
no time to stay  
delinquent society
