

## Morgoth "Selected Killing"

You have no choice between left or right  
'cause your own birth was your fate  
blocking your mind, the truth is so clear  
a life in hate you get it here  
it's this disease you now obey  
no hope or cure it will go it's way  
captured in a social misery  
the consciousness now you see  
kill all the others  
make them bleed  
feel like a hero  
greedy about victory  
do the work now  
that has to be done  
create the pain  
the time still runs  
blow out their lives  
god's on your side, be satisfied  
when their guts are open wide  
think about the glory  
you soon will get  
it doesn't matter

that others pay  
take it into your hand  
time to get cruel  
for that you stand  
slicing the flesh  
practice selected killing  
looking in the face of death  
quit your life in blood  
you rest - violent world  
you know  
death comes for sure  
and slow  
the end is there  
you soon regret  
a wasted life  
and horrible death  
you rot away in agony  
and bounded freedom  
that's what you see

the other side was too fast for you  
the same ideas they believe in too  
an ugly bullet  
sticks in your head  
it stops right here  
now wake up death!
