"Sanctus Perversum"

Visit "[Sanctus Perversum](#)" on MotoLyrics.com

I give you pain, degradation and sorrow, absolve your
Sins and leave your hollow
Be afraid, be restrained, be docile and be weak
Be incomplete, be obsolete, accept defeat, be humble
and
Be meek
So sweet when your hands are tied, so swallow your
pride,
Then swallow mine
Save your soul or you shall burn in hell, You must obey

Or in fire you will dwell
There's no escape, there's no where to hide, 'cause
God
Sees all and God is on my side
I am the flesh, the earthly limbs of God, I am the blood
And the holy rod
Divinity that you must taste, Holy molestation, Holy
Degradation, sacred penetration, sacred violation
