She got up tears tired on a clear crystal day  
It was may day, worker's day, fighter's day  
Fire day, heyday, mayday, in the d-day  
Back in the days, the soviet parades  
Standing side by side in the shade  
Kissin' and cussin' and strivin' and tryin'  
Fussin' and Bumpin' and stickin'  
Hey Girl quit cryin'

Standing side by side in the shade  
Kissin' and cussin' and strivin' and tryin'  
Fussin'and Bumpin' and stickin'  
Hey Girl quit lyin'

She has got to serve the system  
Swerve the engine  
Pull out the screw  
The true screw, the real screw  
The one that'll make it all come down  
Standing side by side in the shade  
Kissin' and cussin' and strivin' and tryin'  
Fussin' and Bumpin' and crying  
Hey Girl, quit crying

Tanding side by side in the shade  
Kissin' and cussin' and strivin' and tryin'  
Fussin' and Bumpin' and lying  
Hey Girl, start something
