Opening my eyes
To see the day
Looking for a friend
For me to say
All about the thinks I dream
Trying all songs I sing
Wish to that's you're
Just more no to you
Just for you
Harmony keeps growing in my mind
I'll try my best
To fit you in my braind
Photographs are all
I have from you
This way I can't forget
I'm lovin' you
And every dream I do, about you

Lady, my lady, don't take the time
To hear my words
Don't make yourself
My song from yesterday, ooh
Lady, my lady
My little angel lady
Just let me be the one for you today

Lady, my lady, don't take the time
To hear my words
Don't make yourself
My song from yesterday, ooh
Lady, my lady
My little angel lady
Just let me be the one for you today

Love
Oh lady
Angel lady ...
Oh,oh lady ...
Angel lady
