Don't think of you as much as I used to  
Since we've been apart  
I don't miss you  
Don't dream of you  
The way that I did before  
I learned to live my life without you  
I don't really need you anymore but

*[chorus:]*

I just wanna cry  
When I see you walking by  
I just wanna die  
Hurt so bad inside  
But I just smile  
And you'll never see it shown  
'Cos I'll never let you know

I've moved on

I barely remember  
All those times we shared together  
Now that you're gone  
All my time is mine alone  
I can do anything I want to  
I feel so much better on my own, but

*[Chorus]*

Don't think I'm sad because it's over  
I'm more than happy on my own  
I'm finally over you  
I don't need you, but

*[Chorus]*

Don't think of you  
As much as I used to
