Remember you told me you didn't want my love
And how you just threw my love away
Funny how the tables turn, baby
Funny how suddenly everything can change

[Chorus:]

Now that you can't have you
That's when you want me
But, baby, it's too late
Time to set the record straight
No, no, no, no, I don't want you around no more

Remember I told you one day you'd want me back
And that you'd be so sorry someday
Funny how the bridges burn, baby
Funny how it's all about the choices you made

[Chorus]

Should've held on while you had the chance
'Cos I've turned the page
And there's no turning back
Found you loved me a little too late
You threw it all away, baby, baby

[Chorus]

Now that you can't see me
That's when you need me
But sorry the love's gone
This time you're talking what's just all wrong
No, no, no, no I don't want you around no more

Now that you can't have me, baby
Now that you can't have me, baby
Now that you can't have me, baby
Ooh, I don't want you around no more
