Our job  
It's ta die  
To die young  
And to try  
To oppose  
To interject  
New ideas  
To infect  
To replenish  
To keep in check  
To finish what we wreck  
While you live on  
Tired & old  
We auto destruct  
Overdose  
I'm against everything you're for  
Money is the alchemy of war  
And death is the object of tha poor  
Our job is ta die  
That's why i'm gonna get so fuckin' high  
I can't breathe  
Anarchy - we are here for just one reason  
To stop you and feel  
Seratonin flood  
Are you fit to lead a country  
Are you fit to lead yourself  
Are you fit to judge criminals  
With your crime begotten wealth?  
Wake up  
It's fuckin' life  
At your door  
With a knife  
To keep the evil  
In tha fight  
To be tha wrong  
That fucks the right  
I'm against everything you're for  
Comfort is the alchemy for sure  
Allegiance to money & to war  
All gods get below  
We have no future to show  
Bow before the wealthy poor

Rich with the hollow knowledge  
Of the absence of more
