"Hold Your Breath"

You are beautiful,
The man your made of,
And everything that drives you

You try so hard
You try so damn hard
You try and try but you just don't get it right

Hold your breath
Darling
Just hold your breath
Cos you're at peace now
Cos you're at peace now

Your calculator, it is dead,
You just can't add these things in your head,

You try so hard
You try so damn hard
You try and try but you just don't get it right

Hold your breath
Darling
Just hold your breath
Cos you're at peace now
Cos you're at peace now

Cos you're at peace now
