Lets write a story
You can have the main part
I'll be between the background baby
To shade you and your heart
I'll try to learn my lines
Be ready at the start

It's not like everyone's my friend
It's not like everyone's my friend

Lets write a movie
You can have the main role
I'll be the camera-man darling
Take pictures of your soul
And when the shoot is over
I wonder will the set be cold?

It's not like everyone's my friend
It's not like everyone's my friend
It's not like everyone's my friend

Got to wake you up in about 10 minutes
Cause here is your stop
I want to carry your luggage until my shoulders ache
