I'll just wait here
wait untill you've won your prize
once and for all

i'll just stay here
stay until your highs come down
once and for all
i hate it when you say

wind me up in all your glory sometimes i cant stand
in all the glory, i wind up tangled, though i guess thats
fair
when you say

gotta get big, gotta get it some how
once and for all
gotta get touched gotta get it right now
once and for all
i hate when you say

"you were mine"
