Here you are attention grabber  
left alone because you are a back stabber  
you thought you played the trumpets to my death  
but really you're the one who's losing your breath

As your teeth begin to grind in pain  
you realize you shouldn't feed me fear  
but you're the one who's lost the game  
I'll be watching you bleeding your tears

here you are accepting to greed  
because you have bit the hand that feeds  
you thought you won this cold-blooded war  
but you have lost it and will gain nothing more

as your teeth begin to grind in pain  
you realize you shouldn't feed me fear  
but you're the one who's lost the game  
I'll be watching you bleeding your tears

here's your invisible lover  
even though he isn't there  
here's your loaded gun  
shoot yourself and no one will care

as your teeth begin to grind in pain  
you realize you shouldn't feed me fear  
but you're the one who's lost the game  
I'll be watching you bleeding your tears
