"A Head With Wings"

Visit ["A Head With Wings"](#) on MotoLyrics.com

I got a head with wings (x3)
And I can see so far away I can see so clear
You would not believe the view up hear
I got a head with wings
A head with wings
Now I'm floating around up here way above the clouds
So high about the ground
And the only thing that holds my head to the ground
Is this one little skinny string
I got a head with wings
A head with wings
I got a head with yea oh
A head with wings
I got a head with wings (x3)
And I can see so far away yea so far away
I can see the shadows fall across your face
I got a head with wings
A head with wings
I got a head with yea yea
A head with wings (x2)
Yea (x2)
