In my heart I'm an ordinary man  
Though I may seem old and I'll  
I have had believes and dreams  
Believe me, I Have got them still

As though my future looks black  
Yet my blood is also red  
I've never felt so blue  
Since They've told me, I'll soon be dead

My hopes and joys have vanished  
As sorrows and despair have vanquished  
I think of beautiful memories long gone  
Knowing they're never to be returned  
Sometimes I fall down on my knees  
God, can't even Thy cure my disease?  
I'm crying, still no one hears  
Behold me for this vale of tears

Although I don't have much time left to live  
I still have got love to give  
What I've done wrong?  
Please tell me why  
Ab inscientia depositus sum  
Tell me am I?
