I feel lucky I just feel that way
I'm on a bus to Atlantic City later on today
I have a seat at at a blackjack table
Swear to God the dealer has a tag says Mabel
Hit me hit me I smile at Mabel
Soon they're bringing complimentary drinks to the
table
Players win winners play oh have a lucky day (x2)
Have a lucky day
Mabel gives me a great big smile
She's getting to know me she's on my side
On my side yea
I'm a winner (x3)
And I came to play now I know why they say
Players win winners play oh have a lucky day
Players win and winners play um have a lucky day
Have a lucky day
Now I'm down a little in fact I'm down a lot
I'm on a roller coaster ride that I can't stop
My luck has changed but she'll come back
That's the beauty of a game of chance
I can't loose forever but I'm doomed to try
Keep on hearing a voice inside
Players win winners play oh have a lucky day
Players win and winners play yea have a lucky day
Have a lucky day (x2)
