The night raise the shadows and the black bring his live  
to fall  
The sky appear scattered by the axe and raven call,  
powered by the sword  
The sky salvage my fellow, the earth guard my heard  
My blood soak the ground, veracity and courage side  
by side, carry on my heard  
The sun send his first rays to gather the cold  
mourning-rope, reflect in the blade  
And take delight, blood in my sword  
Colder as ice, carry the glory and call it your own, so  
call  
Tortured eyes, and tarry between the world from time  
to time, in wooden hall  
A candlelight in the world alone  
The starry sky the confidant home, out of them you fall  
Cry your sweet tears out of the heavy clouds  
And travel sublime on the dark mountain side, out of  
them you call  
Through the mountain hell, a crow on my side  
Shadows became longer, the Morrigan my bride, and  
the fairy's call... Fall!  
A ear-deafening echo followed, the haughty call  
Doubt arise your voice, show humanity in front of the  
golden walls  
Colder as ice, carry the glory and call it your own, so  
call  
Tortured eyes, and tarry between the world from time  
to time, in wooden hall  
A candlelight in the world alone  
The starry sky the confidant home, out of them you fall  
Cry your sweet tears out of the heavy clouds  
And travel sublime on the dark mountain side, out of  
them you call
