Hey, little girl
I saw you walking down the street, little girl
I thought I'd run just to say hi, little girl
Would you mind if just walk along
For a little while, I won't be long

Say, little girl
I know its crazy but I couldn't resist
Just had to be sure that you really exist
Tell me you're the one, the girl I dream of
Tell me you're the one, the reason I live for

Please little girl
Don't walk away, don't leave me lonely behind
It's taken me dreams and dreams to finally find
Someone who's the one, I've always dreamed of
Someone who's the one, the reason I live for

Yes, little girl
Just take my hand, let's keep on walking around
It's just so good to feel, I finally found you
Tell me you're the one, the girl I dream of
Tell me you're the one, the reason I live for

Bye, little girl
Just saw you walking down the street, little girl
Jus thought I'd run to say simply...hi, little girl
I guess you're not the one, the girl I dream of
Someon who's the one, a reason to live for

Bye,bye....
