Angel, Angel
dont take your life tonight
I know they takeant that they take in turn
and they give you nothing realfor yourself in return
and when they've used you
and they've broken you
and wasted all your money
and cast your shell aside
and when they've bought you
and they've sold you
and they've billed you for the pleasure

and they've made your parents cry
I will be here
BELIEVE ME
I will be here
...believe me
Angel, dont take your live
some peopÃ¼le have got no pride
they do not understand
the Urgency of life
but I love you more than lifel love you more than life
I love you more than life
I love you more than life
