Long ago when he was
Young and restless
Suddenly, daddy saw
The beckoning finger of fate

Don't make fun of daddy's voice
Because he can't help it
When he was a teenage boy
Something got stuck in his throat

When you are young
You crave affection
And it can come
From the strangest direction

Don't make fun of daddy's voice
Because he can't help it
When he was a teenage boy
Something got stuck in his throat

Don't make fun of daddy's voice
Because he can't help it
When he was a teenage boy
Something got stuck in his throat
