The first day with the jar  
You find  
Everyone lies  
The first day with the jar  
You find  
Everyone lies, nobody minds

Everyone lies  
Where is the man you respect ?  
And where is the woman you love ?  
Where's the woman you love ?  
The third week with the jar  
You find  
Everything dies  
We won't vote conservative  
Because we never have  
Everyone lies, everyone lies  
Where is the man you respect ?  
And where is the woman you love ?  
Where's the woman you love ?  
I used to dream, and I used to vow  
I wouldn't dream of it now  
We look to los angeles  
For the language we use  
London is dead, london is dead  
London is dead, london is dead  
London is dead, london is dead  
I'm still too much in love  
Oh, I'm too much in love  
I'm more in love
