"Honey, You Know Where To Find Me"

Visit "[Honey, You Know Where To Find Me](#)" on MotoLyrics.com

The future is around me
I'm not gonna cry for the things that never occurred
So do not remind me
Happy to be as I was in the first place

Honey, you know where to find me
Honey, you know where to find me
Kicking away from the mundane everyday
La la la la la

The envy is beyond me
I'm not gonna pine for the things that can never be
mine
Do not expect me to
I'm happy to be who I was in the first place

Honey, you know where to find me
Honey, you know where to find me
Kicking away from the mundane everyday
La la la la la

The future is around me
I see it, I seize it, I use it, I throw it away
Because I'm happy to be like I was in the first place

Honey, you know where to find me
Honey, you know where to find me
Running away from the mundane
La la la la la

Oh honey, you know where to find me
Honey, you know where to find me
Honey, you'll find how to know me
Oh, la la la la la

Oh honey, you know how the land lies
La la la la la la la la
