Dont dig for a metaphor
Has it not tweaked with you yet?
And dont wonder why I'm still around,
I'm just playing easy to get.

Dont dig for a secondary meaning,
I've pushed and I just might find the first.
And dont wonder why I'm standing over here,
I'm just playing easy to get.

Do I have to drop anchor like a sailor,
To switch on the bulb in your head?
Do not frisk me, silence is your answer,
I'm just playing easy to get.

I'm so easy, maybe you've had me,
If you had then you would not forget.
When you see me between cruel and cold anger,
I'm just plain desperate.

So dont waste time trying to get to know me
I'm yours
I'm yours
And dont waste time with snappy conversations
I'm yours
Everybody knows...I'm yours
