Shame is the name (x4)
Hey boy - are you happy to be
A dim-ass teen on the spree?
You get drunk all day
And you're sick all night
Is this the sum of your life?
What's your name, what's your name?
What's your dreams, your goals, your ambitions and
aims?
He laughed and said...
"Shame is the name"
He said "Shame is the name"
Shame is the name
He said "Shame is the name"
Hey girl - are you happy to be
A dim-ass teen on the spree?
You get drunk all day
And you're sick all night
Is this all you was born for?
What's your name, what's your name?
What's your dreams, your goals, your ambitions and
aims?
She laughed and said...
"Shame is the name"
She said "Shame is the name"
Shame is the name
Shame is the name
Politician - can you listen
To yourself for just once in your life?
Because there's something you said
To mean soldiers are dead
Because the money you save
Seniors are in their grave
Shame is the name (x4)
Shame makes the world go around (x4)
