The fight for morality, the fight between two minds--  
one heart, one stone, heart turned to stone--in time of  
war, in time of  
Peace--in time of need i stand alone--manipulate,  
destiny by forced control--manipulate, the one thought  
process--manipulate, i  
See the jealousy grow--in time of war, in time of peace--  
in time of need, i stand alone--searching through past  
memories--i carry  
The conflict--manipulate, destiny by forced control--  
manipulate, the one thought process--manipulate, i see  
the jealousy  
Grow--you crucify me for your mistakes--as you relive  
your through me--searching through past memories--i  
carry the  
Conflict--time will never forget--the fight for morality,  
the fight between two minds--one heart, on stone,  
heart turned to stone.
