Lurid visions dancing in the twilight, visions dancing  
exquisite. Ghostly images distorting, ghostly images of  
Christ. Controlling my  
Every thought. To receive blessedness in heaven I must  
mutilate the human race... Apparitions of Christ.  
Recurring faint  
Semblances. Pallid and enchanting, horrid illusions  
provoking. Unexplained visions haunting. Corpses like  
mannequins lie lifeless  
Before me, bleeding. Continuously they speak to me.  
Uncontrolling murdering, twisting reality. Disembodied  
spectres heinously  
Cackling. Their dying voices echoing, shrieks of  
unbearable suffering. The flesh of eternity, the blood  
of eternity.
