my faith my grief my fear my blood
my trust my flesh my hate my love
these bones my skill this skin my pity
my time - it shells the fate upon me
your turn your twist foresight and acumen
your will your wish your primacy
my valor my virtue my perils my regrets
remain inviolate - perforce
through Your power
i fathom grace at fathom speed

my prayer my plea request repleat
receive reply reveal ! Reveal !
Godspeed in motion and force
Godspeed the power and source
Godspeed God's grace God's love
no more no less no fear no need
no height no depth too great
Godspeed
