Blood red tape disaster  
slow swimming black  
disease  
seasons strangled sti-  
fled strained  
Belief sold for diplomacy  
who will Heal the  
wounded skies  
politics terrify  
tear down the  
Compromise and live  
for love  
who will hear the silent  
cry  
our passions Crucify  
there has to come a

time when life will prove  
enough  
painted warning signs of  
life  
media Sinister selling  
spite  
deep runs the lies  
breaking Us down  
belief Sells security  
Noble ends dubious  
means  
elude the Sleeper  
swift the gap closing  
between  
the fool and the  
Believer !
