(feat. Emma Hewitt)

Does your life fall away from view?  
As the time runs away  
Whatever will you do  
Do you want me again, my dear  
I will wait for you

If your thoughts turn to prey on you  
I will keep them away, so far away  
Through the dark night I'll stay with you  
I will comfort you  
Oh, I will

Calm down  
Your nervous state  
I'll sing you a lullaby

Calm down  
There's no mistake  
To keep you up all night

Fall down  
Here with me  
Baby, we'll be alright  
Baby, we'll be alright

Calm down
