[feat. Alana Aldea]

No matter what they say, love
No matter what they do to us
No matter what may come, my dear
Remember when I say

We're never apart
We're never apart, yeah

Feeling and screaming you're gone
Feeling and dreaming on
Feeling, screaming
Feeling and dreaming on

We're never apart
We're never apart, yeah

Wherever you may be, love
When storm and clouds appear
Just think of me
Wherever we may run
Remember these three words

We're never apart
We're never apart, yeah
