Waiting at the starting line for the signal gun
Stadium is silent soon you'll be on the run
Through the window you see the other cars in line
But if you keep it all cool you win it all this time

Race car driver
What you're gonna do

Race car driver
They're catching up to you

Race car driver
Now you're losing speed

Race car driver
Can you feel the need

You hit the ground running and now you're in first
Place
A guys on your tail but you waste him round the first
Gate
But now another's back on you and he hits you with all
He's got
So you need press harder speed it up yeah you need it
A lot

The finish line is drawing close you're at full speed
They've been coming up behind you but still you've got
The lead
But what is this a challenge now suddenly neck and
neck
50 meters to go and now baby you can't look back
