(feat. Cary Brothers)

Is this the feeling  
This is the break out  
This is the feeling

Is this the feeling  
This is the break out  
This is the feeling

Since you're full of this world  
With all the politics and schemes  
And then you shatter it all open  
You're not sure of what you need

I can take you somewhere, somewhere  
I can take you  
I can take you somewhere far away

I can take you somewhere, somewhere  
I can take you  
I can take you somewhere far away

Go ahead wake you mind  
I won't tell  
You have the right to feel everything

Go ahead wake you mind  
I won't tell  
We have the right to feel everything
