Discovering the decomposed bodies, awfully mutilated
genitals gruesomely
Removed, replaced with dirt thievery for grotesque
memories, victims of
Sado-sexual perversions...
Acts of genius, distorted, mastermind of the macabre
art. Obliterating most
Traces of forensic evidence DNA nonexistent, bodily
lividity badly bruised,
Abrasions from a violent struggle fractured skulls
partially defleshed, jaws
Severely shattered eyes sunken in from repeated
beating, savage beyond
Comprehension and all that is human. Chikatilo your
sickness immortal.
Lusting the innocent, defiled. What are you thoughts as
you rape the
Children, molest and sodomize? To crave necrophilia,
to devour pieces of
Your victims. Bizarre envy, the fascination of your
lunacy conquering the
Unreal. Hunting the mysteries, unknown identity.
Inhuman capabilities to
Brutalize the young flesh. Pleasured by the hands of
insanity. Fathoming the
Homicidal rages. Maniacal sex criminal, pedophile,
torture killer. Exhuming
The masticated, recover the horrid images both sexes
violated, orally anally
Penetrated. Human predator unidentified, eyes and
tongues removed, torsos
Viciously stabbed, enhancing the orgasm. Insane
fucking brutalizing
Creation, your mind a cavern of grave recollections...
