Defiled by the hands of savagery, traumatized  
seduced by agonized screams,  
Depravities, excessive bloodshed, slowly slipping  
insane, raging anger,  
Uncontrolled hatred repeatedly raped, severely  
beaten. Uncountable days  
Captive, her body weakens from starvation, obvious  
physical deterioration.  
Cripple with fear, shivering in horror. Terrorized as she  
gazed into my eyes  
In a semiconscious state, seldomly passing out. Cries  
amplified in silence  
Increasing the agony, she feel into catatonia. Molested  
while unconscious,  
Oral insemination, violent intercourse, nipples bitten  
and removed, her  
Dangling body stained with blood and excretions,  
reeking. Driven into  
Hysterics. Mentally scarred forever hallucinations,  
constantly reminding.  
Although she survived, she will always visualize the  
horrid scenes.
