Mayhemic destruction, death's the call  
Crushing with abduction, wants to kill them all  
Eternal devastation, oozing with pain  
Manifestation, live for Satan's reign

Mayhemic destruction!

Total distortion, blood from your ears  
Living with abortion, memories disappear  
Facing your destiny living just to die  
Christian immunity reaching for the sky

Mayhemic destruction!

People fleeing cause they're scared  
Yet no place to go  
Fire and brimstone in your blood  
Fuck who told you so  
Take your heart, send it down to a firey death  
Got no chance to live, we drain out your last breath  
You were warned of this  
Your unholy book  
Devouring vermin destroy a corpse  
Dare you take a look  
Armageddon went too far  
What is left of life  
Pity up there in heaven  
You missed your cut of a knife
