Unholy delirium, hallucinations controlling.
Dismal shades of reality fade away.
Twisted obsessions of bizarre inhumanities,
involuntarily torturing.
Watch in fascination, agony feeding the insanity.
Sadistic, macabre lust, pleasure and misery now
become one...
Shackled bodies cauterized, departing from existence.
Quivering, suffering oh so slowly.
Deranged acts of cruelty, celebration of
disembowelment.

Witnessing these blank expressions as they wonder
hopelessly.
Eulogies of heinous laughter as I revel in sacrificial
corpulence.
Rejoice in mortal blood, rejoice in moribund.
I feel no emotions as you slowly pass away.
Dying lives now perish, I writhe in ecstasy.
