Your time will come around, baby your
Time will coma around
The moment that you stop, you will drop
Right back tozero
You'll be fine, baby, you'll be fine
Any whichway you choose
Do yourself a favour and learn how to
Loose
It might not be like it was in your
Dream
But remedies for what you want does not
Exist
In the end men will be gravedigging
In the end it will be silent again
And when you've tried everything and
Not yet succeeded
Then come on back home, come on back
Home yo me
You've taken some rought beating in
Your young life
It's the end of the rope, come on back
Home
