Your knees are shaking, I can hear it
Your heart is beating a nerveous beat
Your voice is speaking in an strange tune
Baby please come home soon

Been up all night and you are tired
You only want what you can never get
It'll take a while, but you will find out
That everything's changed in your life

Why is everybody leaving? (ooh)
You're just trying to do your own thing
And you couldn't have it any other way

(ooh)
Our ove is deep
(so deep)
Deeper than God's will x2

I've heard you found someone just like me
Who's everything you wanted me to be
It'll take a while but you will realise
that nothing has changed in your life

Been up all night and you were tired
you only want what you can never get
It'll take a while but you will find out
That nothing has changed in yor life

Why is everybody staring? (ooh)
You're just trying to do your own thing
And you wouldn't have it any other way

(ooh)
Our ove is deep
(so deep)
Deeper than God's will x4
