In the dark space  
When I close my eyes  
I see your face shining  
Like the moon in the night

And I must tell you  
From my heart  
I've been waiting my time  
My love, all over the world

You're with me, with me, with me, you're with me  
You're with me where ever I go  
You're with me, with me, with me, you're with me  
You're with me where ever I go

Remember who you're on the back of  
Riding through the human race  
Crossing these rivers of memories  
Girl, you've got sunshine on your face

You're with me, with me, with me, you're with me  
You're with me where ever I go  
You're with me, with me, with me, you're with me  
You're with me where ever I go

Time, time's like a slow rising wave  
Gathering, gathering up nights and days  
And I feel, I feel I'm at the moment when it breaks  
Yes, I feel we're at the moment when it breaks

You're with me, with me, with me, you're with me  
You're with me  
Riding through you every night

'Cause you're with me, with me, with me, you're with  
me  
You're with me  
And in our window there is light  
Where ever I go  
And in our window there is light

You're with me, with me, with me, you're with me

You're with me where ever I go  
With me where ever I go
