[Lyrics: J. Alanis, Music: A. Martinez]

Down below the gates of hell  
The apocalypse has begun  
From open abyss they are here  
Tormenting souls, injecting fear

You want to run - there is no hope  
You want to escape - your evil fate  
You want your death - it's all you need  
Desperated - death is not here

Deformed faces by endless horror  
Your heart tries to change your soul is sealed  
Torture in your bare flesh  
Suffering while you seek death, no way to die!

Images around you  
The last day comes this is the truth  
Horror, torture  
Undeceived is your mind  
Five angels passed  
Abyss angel  
Is reigning

Down below the gates of hell  
The apocalypse has begun  
Torture in your bare flesh  
Suffering while you seek death

You want to run - there is no hope  
You want to escape - your evil fate  
You want your death - it's all you need  
Desperated - death is not here  
Await the worst!!!
