(J. AlanÃs)
Inhalation of insanity
The bastard now must die
Infect by blood
Asphyxia in my brain
Suffering my mind
Tortured is my brain
How long can I resist?
Gaspng diseased
Days will pass, I'm here inhaling bastardity
This is the meaning of kill, if I survive my mind

Will decline
My mind is trapped
Into a sea of toxic blood
No live to pain
No pray to save me of hell
This is real
No bastard images vomiting my brain
War between
To live and die!
Suffering my mind
Tortured is my brain
Suffocated thoughts
Asphyxiation!
