Yo yeah, yo yeah, yo yeah  
Yo, yo, yeah, yeah

Black is, black is something to laugh about  
Black is something to cry about  
Black is serious, black is a feeling  
Black is us the beautiful people

Yo yeah, yo yeah, yo yeah

That was when some of them bad niggas  
Made beauty moving juju changes, the drum musics  
hum  
Mojo vibrated and high jons screamed through the  
bloods  
To no more hears the blood sounds, no more folk  
intercourses

And all the niggas listening acted visionaries  
To dig my people, they acted  
The ryhtms pulling their minds was one  
And moved, moved, moved

Universe earth spirits firing the soil to destroy the evil  
unimage  
Cleanse the waste from the cold lands  
Until the cosmos was whole again  
And the worlds had become nude

Yeah yeah yeah yeah yeah  
Yo yo, yeah

3:30 in the morning with not a sole in sight  
We set for deep at a traffic light  
Talking about how dumb and brainwashed  
Some of our brothers and sisters are  
While we wait for a green light to tell us when to go
