It's creeping around the bend
Death illuminates our lives relive within
Like a black sunrise
Reality takes shape and form and fills the skies
Some questions will fade these will remain

Are you? Are you gonna fall behind?
Do you? Do you feel these holes in your lies?

Looking 'round to see
Everybody racing towards the end with me
Made me slit my wrists
Let love wrap itself around my fingertips
Some questions will fade these will remain

Are you? Are you gonna fall behind?
Do you? Do you feel these holes in your lies?
I said do you? Do you feel these holes in your lies?
Oh, yeah
These walls

I know you may tire in these pools of tears
Don't fade out it's almost here
The final hour
Hour

Said are you? Are you gonna fall behind?
Said do you? Do you feel these holes in your lies?
Are you? Are you gonna fall behind?
Do you? Do you feel these holes in your lies?
Are you? Are you gonna fall behind?
Do you? Do you feel these holes in your lies?

Creeping 'round the bend
Death illuminates our lines relive within
