Everybody waits  
For clouds to separate  
Everybody waits  
For God to give us rain  
Clouds will separate  
Everybody waits

Everyones alive  
And someday we'll all die  
All the evening skies

Tainted with old lies  
It's a brand new life  
We are so alive

Distance makes us stronger  
Be the strongest  
The time brings us closer  
We've waited the longest

We gotta be honest  
I've waited my whole life  
And oh I want this

Oh September skies  
Opened up my eyes  
We've got so much time

To live with brand new lives  
All my hopes are high  
Oh September skies

Distance makes us stronger  
Be the strongest  
The time brings us closer  
We've waited the longest

We've gotta be honest  
I've waited my whole life  
Oh I want this
