"Nice At Night"

Visit "[Nice At Night](#)" on MotoLyrics.com

Light doesnt work on what is shown
Have you ever tried to dim it
If you should ever feel its getting worse
Just dont hide until you beat it

cause youre the light of the stars
Shut out my fear of the dark
And now youre pullin me up
Pullin me up to the sun

Time draws the lines and hides the scars
Have you ever felt the healing
Dont force yourself to play that part
Close your eyes and keep the feeling

cause youre the light of the stars
That pull my troubles apart
This is freakin me out
Pullin me up to the sun

The glass dont ever reflect your face
Because you cant be there
Spend some time with your enemy
And look right into his eyes

cause youre the light of the stars
Shut out my fear of the dark
And now youre pullin me up
Pullin me up to the sun
