There's a park in Santa Fe
Where you can sleep all day
And nobody will bother you

I had a dream I was on a plane
And you were sitting next to me
When the plane crashed into the sea
We kept floating
And somebody touched your shoulder
And tried to push you under water
I tried to save you
But you your face turned blue

I had a dream I was in your heart
And I was pumping the blood
To all your parts
And you started breathing
You started singing
And I never wanted a solo
Or resolve into the final note
Just singing in harmony
That's when you spoke to me

Darling don't be shy with me
My days on earth are numbering
So hold me before my bones freeze
The angels see my body floating
Up into the sky
Please hold me tight
Don't say goodbye
Don't say that when we meet again
If just as friends
Remember when you knew me as
Darling don't be sky with me
My days on earth are numbering
So hold me before my bones freeze
The angels see my body floating
Darling don't be sky with me
My days on earth are numbering
So hold me before my bones freeze
The angels see my body floating
Darling don't be sky with me

My days on earth are numbering
So hold me before my bones freeze
The angels see my body floating
