

Motel Motel "Dinosaur"

I wish I could stay but I have to many appointments
I have fifteen million people telling me Iâ€™m fine
If I didnâ€™t lose my mind
You would be mine

I have a ghost follows me causing distraction
But he makes me feel good when Iâ€™m lonely and
depressed
I have hard friends for all the soft times
And soft friends for the hard times
You will be mine
You will be

Out on the street out on the street where will it go?
Looking at you is like looking at me hold your passport
I canâ€™t believe your telling me dreams now weâ€™re
done for
You will be mine
You will be

Youâ€™re so pushy telling me to go
But I canâ€™t go anymore anymore
Tilâ€™ that stone cold killer knocks on your front door
