All my love comes with corazon  
And a little grace  
But I can't sit here and watch you piss your life away  
All I see is sentimental boy in his mind  
Keeping Jesus Christ in his life  
Let it go

My heart my soul please let it go  
To the river let it ride let it roll let it roll  
My heart my soul please let it go  
To the river let it ride let it roll let it roll

Oh I live in tall buildings in elevator towns  
My job keeps taking from the ground

But I'm not going back to work  
I'm not going back to church  
I'm not putting hands back in the dirt  
Let it go

My heart my soul please let it go  
To the river let it ride let it roll let it roll  
My heart my soul please let it go  
To the river let it ride let it roll let it roll

My heart my soul please let it go  
New York's my home  
Not Mexico  
My heart my soul please let it go
