I dream about a perfect day
A perfect moment to live
I watch the stars that fall across me
And let my consciousness to live

Refrain:

Hold each other hand
When unfair world can't understand
But it all just fades away
As the hour lapses and changes to pain

Chorus:

Will my morning be forever empty?
I want my perfect dream
Coz' it's the only way I can hold you again
And I don't want to wake up with my sadness and regret!

This emotion is killing me
And this illusion is setting me free
I don't wanna end up like this
Suffering nightmares just because of your kiss

Refrain:

Hold each other hand
When unfair world can't understand
But it all just fades away
As the hour lapses and changes to pain

Chorus:

Will my morning be forever empty?
I want my perfect dream
Coz' it's the only way I can hold you again
And I don't want to wake up with my sadness and regret!
